

5DV022 -- Analysis of Algorithms

Software Exercise 2

Grading Sheet

Description of the general experiment (10): _____

Description of profiling technique (10): _____

Description of array and random-number generation (10): _____

Test runs (10): _____

General data and plots (20): _____

Analysis of results (including gprof) (20) : _____

Detailed profiling of all procedures (10): _____

Source code (10): _____

Total (100): _____
