

# 5DV022 -- Analysis of Algorithms

## Software Exercise 3

### Grading Sheet

Introduction and description of the general experiment (10): \_\_\_\_\_

Description of profiling technique for part 2.1 (10): \_\_\_\_\_

Description of random-number generation (5): \_\_\_\_\_

Description of technique for computing the swap-count measurement efficiently for part 2.2 (15): \_\_\_\_\_

Test runs (10): \_\_\_\_\_

General data and plots (20): \_\_\_\_\_

Analysis of results (including gprof) (20) : \_\_\_\_\_

Source code (10): \_\_\_\_\_

**Total (100):** \_\_\_\_\_
