Course Organization

Staff:
- Stephen Hegner: Lectures
- Petter Edblom: Group exercises, grading

All course documents:
- On-line: course web page.

Old course plan:
- Propositional logic
- First-order logic
- Programming in Prolog

New course plan:
- Propositional logic
- First-order logic

Rationale for the change:
- Old outline was too cramped for time.
- Coverage of all topics was severely compromised.
- New plan allows for greater discussion of application-related concepts.

New book:
- *The Essence of Logic* by John Kelly

On-Line Materials

- Presented in Adobe PDF.

- Include:

  - Slides associated with lectures.

  - Obligatory exercises.

  - Recommended problems for group exercises.

Remarks concerning the slides:

- The slides are supporting materials for the lectures, not a substitute for attending them. The slides are not comprensive.

- To obtain coverage of all course material, attendance at the lectures is essential.
