

# Grading Policy Overview

- 1000 grading points total.
  - written final examination: 800 points
  - obligatory exercises (5): 100 points
  - obligatory programming project: 100 points
- Grade (betyg) based upon total points.
  - $\geq 800$  points: 5
  - $\geq 650$  points: 4
  - $\geq 500$  points: 3
- Course carries a unified 5 credits (poäng).
- Both examination and obligatory exercises must be completed to receive the credits.
  - No separate “moments” of “3 points theory” and “2 points practice”.
- Obligatory exercise point grades based upon quality of the work and timeliness of submission.
- Points from obligatory work completed in previous years may not be carried over to the current year.
- Credit for completing all exercises in a previous year, but with zero points, may be awarded upon explicit request.
- Obligatory exercises may be solved in groups of at most three students.
- Consult syllabus for details.
